

COMMENCEMENT

UF

Commencement

SPRING 2016

University of Florida President

Dr. W. Kent Fuchs

Dr. W. Kent Fuchs became the University of Florida's 12th president in January 2015.

Most recently the provost of Cornell University, Dr. Fuchs' experience combines academic leadership as a provost, dean and department chair; a distinguished career as an engineering professor; and graduate education in both engineering and divinity. In accepting the presidency, Dr. Fuchs outlined his overarching goal for UF: to elevate its stature, as measured by quality and comparative excellence, to that of one of the nation's best public universities.

President Fuchs will pursue this objective by continuing to lead the university's preeminence plan, along with a campus-wide goal-setting effort to set objectives for the next five and ten years. He will seek to significantly increase UF's endowment; enhance the efficiency and effectiveness of university operations; and establish UF as a national leader and voice for higher education.

The UF presidency is a natural next step for Dr. Fuchs, who spent six years as Cornell's provost. There, he led the creation of a new technology campus in New York City, launched a universitywide initiative to raise Cornell's academic stature and was a key leader of Cornell's fundraising efforts. He was appointed provost after serving as the university's Joseph Silbert Dean of Engineering from 2002 to 2008. He joined Cornell from Purdue University, where he headed the School of Electrical and Computer Engineering from 1996 to 2002. He was a professor in the Department of Electrical and Computer Engineering and the Coordinated Science Laboratory at the University of Illinois from 1985 to 1996.

He is a fellow of the American Academy of Arts and Sciences, the American Association of the Advancement of Science, the Institute of Electrical and Electronics Engineers, and the Association for Computing Machinery, and has received numerous awards for teaching and research.

President Fuchs earned his doctorate in electrical and computer engineering from the University of Illinois, and a master of divinity from Trinity Evangelical Divinity School in Chicago. He credits divinity school with teaching him communication and community-building skills, and to balance his innately analytic perspective with a deep appreciation for people and for human relationships. He also holds a master of science from the University of Illinois and a bachelor of science in engineering from Duke University.

Dr. Fuchs is married to Linda Moskeland Fuchs, an art historian whose scholarship centers on the sculpture of sarcophagi created in the first centuries of Christian art-making. Mrs. Fuchs has two master's degrees in art history, from the University of Chicago and Cornell, and a third in Biblical studies, from Trinity Evangelical Divinity School. She is active in campus and community life, including spending six years on the board of Chesterton House, a center for Christian studies at Cornell, the past three years as chair.

The Fuchses have three sons and a daughter, Micah, Eric, Isaac and Christine. Eric and their daughter-in-law, Mikaela, have a baby boy named Henry.

Born on an Oklahoma farm in 1954, President Fuchs spent much of his youth in Alaska before moving to Miami, where he graduated from Miami Killian Senior High School. His two younger brothers and stepmother live in South Florida.

Greetings from the President

On behalf of the University of Florida and our administration, faculty and staff, I would like to extend my heartfelt congratulations to you, the Class of 2016, and to your family and friends.

Today's ceremony celebrates your considerable accomplishment in completing a degree program at one of the world's great universities. I share your pride and excitement, and I am confident that your degree – and the skills and experience you acquired while at this university – will serve you well in your careers and lives.

As you enjoy this celebration, you may already be headed for graduate school or a professional opportunity. I urge you to pursue your highest career aspirations while remaining attuned to your capacity to make meaningful and lasting change in people's lives.

UF graduates have a long history of service to others, and I know you will continue that tradition "For the Gator Good."

It has been a privilege to have you as a part of our community, and the university is better for your time here. I hope you remain connected to UF as active alumni and members of the Gator Nation.

Good luck, best wishes, and Go Gators!

W. Kent Fuchs

Distinguished Alumnus Award

Henry R. Boekhoff

Henry R. Boekhoff has been widely recognized as a leader in the field of school finance and for his dedication to improve the quality of public education across Florida during a career spanning four decades.

Dr. Boekhoff has served as deputy superintendent and chief financial officer for many of the state's largest school districts, including Miami-Dade, Palm Beach and Orange counties, where he displayed a passion for education and commitment to schools and communities.

More recently, Dr. Boekhoff served as co-CFO of Florida Virtual School, the country's first statewide Internet-based public high school and a provider of online K-12 education programs.

Dr. Boekhoff earned three degrees from the University of Florida. In 1966, he received a bachelor's degree in business and he returned to receive a master's in education in 1970 and a doctorate in education leadership in 1978.

During his long career, he has helped shape the formula that funds Florida public schools and advocated for fair and equitable school funding. He coined the phrase "adequacy and equity" to highlight the inequitable distribution of education funding caused by the wide disparity in property values between rich and poor counties in Florida.

Noted for his expertise in Florida's school finance formula, Dr. Boekhoff's leadership helped Florida craft one of the most equitable education funding formulas in the nation.

His expertise in the complexities of the Florida Educational Finance Program (FEFP) and in the field of school finance has been recognized by governors, legislators, commissioners of education, school superintendents and school boards.

Dr. Boekhoff is the founder and first chairman of the Florida School Finance Council, an

expert group of public school professionals that advise the state commissioner of education on fiscal policy.

He also received a fellowship to study school finance with the National Educational Finance Project, which is funded by the U.S. Department of Education. During this time, he conducted public school finance studies for several state legislatures.

Often referred to as the "dean" of school finance officers in Florida, Dr. Boekhoff has frequently been sought by Florida school officials to consult on school financial matters. School districts have benefited from his advice and coaching to solve complex funding issues.

His work has been consistently recognized for addressing financing challenges while balancing the priorities of students and the needs of teachers, administrators and communities.

Distinguished Alumnus Award

Lewis P. Shapiro

Dr. Lewis P. Shapiro is a professor and director of the School of Speech, Language, and Hearing Sciences at San Diego State University, with research expertise in the linguistic, cognitive and neuroscience underpinnings of speech and language processing.

He was born in New York and grew up in south Florida. He graduated from the University of Florida in 1974 with his B.A., from the University of Memphis with his M.A. (Speech-Language Pathology) in 1977, and his Ph.D. (Psychology; Linguistics and Cognitive Science) from Brandeis University in 1987. Dr. Shapiro's first academic research position was at the Harold Goodglass Aphasia Research Center at the Boston University School of Medicine from 1986 to 1988. His next position, from 1988 to 1995, was in psychology at Florida Atlantic University's Center for Complex Systems and Brain Sciences. Dr. Shapiro's first clinical position was in Levy County, Fla., and his other clinical positions included Massachusetts General Hospital in Boston and Santa Clara County, Cal.

Dr. Shapiro began his current university position at San Diego State in 1995. His research often focuses on clinical populations, including adult stroke survivors who have aphasia, and children who have been diagnosed with cognitive and language disorders. More recently, Dr. Shapiro has used cytoarchitectonics to understand the functional role of various brain regions subsequent to brain damage.

Dr. Shapiro co-directs the Language and Neuroscience Group Laboratory at SDSU where doctoral students, masters and undergraduate students are mentored. He is also a founding member and on the executive committees for the SDSU/UCSD Joint Doctoral Program in Language and Communicative Disorders, and the SDSU Center for Clinical and Cognitive Neuroscience. Dr. Shapiro has been a high-volume Principal Investigator at SDSU and has had continuous NIH funding since 1988. He is

also a PI on an NIH training grant since 2005 that funds several doctoral students.

Dr. Shapiro has published approximately 60 peer-reviewed research papers, with approximately 150 peer-reviewed and invited presentations, and has edited two books on language and the brain, most recently a textbook for graduate students in clinical speech-language pathology and neuropsychology. He has been a long-standing grant reviewer for the National Institutes of Health as well as for the Department of Veterans Affairs. Dr. Shapiro has received outstanding alumnus awards from the University of Memphis and Brandeis University, as well as outstanding faculty awards from San Diego State University.

Dr. Shapiro's impactful scientific contributions include some of the first work using linguistic theory to investigate language processing in aphasia, the first online work on the role of predicate-argument structure in sentence processing in both neurologically healthy individuals and those with aphasia, some of the first work investigating the role of intonation and prosody in online sentence processing, work suggesting the separation of lexical from syntactic processing routines and cutting-edge collaborative work examining the efficacy of a treatment approach for sentence production and comprehension deficits in aphasia.

Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, research projects or honors thesis. Four-year scholars must have started as freshmen at UF and have no more than minimal work at other institutions.

Natalie Heim
Four-Year Scholar

What is your proudest Gator moment?

When I read a professor's letter of recommendation, with permission, for an internship. I was blown away and overcome with pride over what he had to say about me. It is amazing when others see strengths in you that you haven't seen yourself.

What is something every Gator should know?

Nobody knows exactly what he or she wants to do and how they are going to get there. We are all figuring it out along the way, often through mistakes and missteps. Try things that scare you; embrace things that change you; and just be committed to the journey.

What is your favorite Gator icon or tradition?

Albert and Alberta. Nothing will replace doing the Gator chomp with our mascots at the Swamp, surrounded by devoted fans having the time of our lives. We aren't just rooting for the team; we are all rooting for each other.

Who are the Gators who inspire you?

Those who are passionate about what they are striving for. These people are innovators, creators and go-getters, and they won't settle for less than they deserve.

What is the most important lesson you learned from (or taught to) a fellow Gator?

Take initiative. In anything you do, don't wait to be told or asked. Just do, and do whatever it is with integrity and pride. This lesson has permeated my whole life, and I can only hope it has rubbed off on those around me, as well. When you know the power of initiative, it's incredibly motivating.

Which UF affiliations or activities nurtured you most?

WUFT-TV nurtured, matured and prepared me for the real world. It taught me time management and professionalism. It granted me hands-on learning while being able to provide a service to the local community by proving a source of relevant news.

How will you pay it forward?

I cannot wait for the day I can help UF students obtain their dreams. I am so incredibly grateful to the Gators, supervisors, family, friends and friends of friends who have given me networking help or guidance.

Mary King
Four-Year Scholar

What is your proudest Gator moment?

Graduating in the Swamp after four years of hard work, academic challenges and great times in The Gator Nation.

What is something every Gator should know?

It's always OK to ask for help when you need it. Your fellow Gators have a lot of knowledge and support to offer, so don't be afraid to reach out to them. They are almost always happy to help.

What is your favorite Gator icon or tradition?

Saturdays in the Swamp during the fall. I love the atmosphere, bright colors and traditions of Gator game days, especially when the crowd sings "We Are the Boys" at the start of the fourth quarter.

Who are the Gators who inspire you?

My grandfather, Robert Bryan, is a former English professor, provost and interim president of the University of Florida. He inspired me to come to UF and follow his footsteps as an English major. My uncle, Matt Bryan, my mother, Lyla King, and my brother Robbie are all Gators, and I am proud to continue my family's UF tradition as a third-generation Gator.

What was your most fulfilling UF role?

My experiences as a member of the executive board and then executive officer team of the Student Honors Organization. I helped plan events for Honors students, helped mentor first-year Honors Gators and made lasting friendships with smart, motivated people.

Which UF affiliations or activities nurtured you most?

The Honors program helped me transition from a small high school to a large state university. It introduced me to some of my best friends and most inspirational mentors, and it helped me grow into my Gator identity. I joined some of my Honors friends in Phi Mu sorority as a sophomore. Phi Mu supported me in every endeavor and gave me the confidence to pursue my dreams.

What will your legacy be?

The lives I have touched at UF, particularly in my sorority. I want to leave a legacy of inspiring intellectual curiosity, determination and compassion for others.

Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, research projects or honors thesis. Four-year scholars must have started as freshmen at UF and have no more than minimal work at other institutions.

Jacklyn Locklear

Four-Year Scholar

What is your proudest Gator moment?

Traveling to compete with the UF equestrian team and representing UF at our regional competition.

What is something every Gator should know?

UF has many resources. All you have to do is be proactive and take every opportunity that is presented to you.

What is your favorite Gator icon or tradition?

Football season. It is so cool to be part of traditions that have been around for so long. It gives me chills every time I sing “We Are the Boys” while standing side-by-side students and alumni.

Who are the Gators who inspire you?

Every student I meet. Students at UF are so diverse and involved in so many amazing activities. Everyone here inspires me to work hard and achieve my goals.

What is the most important lesson you learned from (or taught to) a fellow Gator?

Have fun while you’re here because four years fly by.

What was your most fulfilling UF role?

Volunteering with the Mobile Outreach Clinic because I was able to work with the underserved community. I know I drastically improved the lives of many people by providing free medical services to those in need.

Which UF affiliations or activities nurtured you most?

The UF Equestrian Club because it provided an outlet for me to grow as a leader.

How will you pay it forward?

Mentoring fellow students and guiding them along their undergraduate journey.

What will your legacy be?

Improving the scope of the UF equestrian team. Inspiring students I tutored to succeed academically and attain their goals.

Sean Taasan

Four-Year Scholar

What is your proudest Gator moment?

Putting on my white coat for the first time as a member of the UF College of Medicine class of 2019 was a moment I’ll never forget. It validated the hard work I put in over the past four years to make my dream of becoming a physician come true.

What is something every Gator should know?

The only way to grow is to reach outside your comfort zone. Look for opportunities that challenge you, the ones that demand more out of you. You have four years at this incredible institution, and time you’re not trying to make yourself a little better is time you’ll later wish you could have back.

Who are the Gators who inspire you?

I am surrounded by classmates who work tirelessly to make themselves better — better as individuals and better as future physicians. Watching them work is a constant inspiration to me — a reminder that what we do now counts and can allow us to have a greater impact in the future.

What was your most fulfilling UF role?

Serving as the site officer for the Equal Access Clinic Network at Main Street allowed me to play a crucial role in providing health care to the underserved population of Gainesville and Alachua County. Being part of something with meaningful consequences for real people is an experience I will never forget.

How will you pay it forward?

The path to being accepted to medical school is one of the greatest challenges an undergraduate can face. Knowing how difficult it can be, I am always looking for opportunities to serve as the same type of mentor as those who paved the way for me. Without the advice I received, I could never have achieved everything I have, and I hope to pass that support on to the next generation.

What will your legacy be?

I hope I’ll be remembered as someone who cared. Someone who took the extra time or effort to do what was right rather than what was easy. More importantly, I hope that when younger students look at me they’ll be inspired to strive to do the same thing.

Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, research projects or honors thesis. Two-year scholars must have earned an Associate of Arts degree at a Florida state college and have completed the remainder of their degree at UF.

Jennifer Sierra
Two-Year Scholar

What is your proudest Gator moment?

Every time someone asks me or my family what university I was attending, and we very proudly answered: “University of Florida.”

What is something every Gator should know?

UF offers countless opportunities to provide students the best experience in all dimensions of their lives. There isn’t an excuse to not fit in, because the UF community goes out of its way to make you feel at home.

What is your favorite Gator icon or tradition?

The orange and blue. They are such unusual, bright colors that nobody (not even non-fashion-oriented people) would wear them unless they were extremely proud of their university. I find it magical on game day — everyone wearing the same colors — as proof that race, gender and ethnic categories are no longer meaningful in context that we all feel united by one university.

Who are the Gators who inspire you?

Each and every one I see while walking on campus. We have a very smiley community that makes me feel welcome and inspires me to continue through my day with the best attitude.

What is the most important lesson you learned from (or taught to) a fellow Gator?

From various professors, students and staff members, that I should feel confident and proud of myself. After experiencing hardships throughout my life and still being able to make it to the University of Florida makes each of these experiences worth it.

What was your most fulfilling UF role?

Participating in research opportunities. Whether studying abroad or conducting my senior thesis, I felt I was not only fulfilling my personal interests but also the university’s interests. As the UF website says, we are all here to “strive for a better world through better research.”

Which UF affiliations or activities nurtured you most?

The Minority Mentor program. I was invited to participate my first term at UF. I was full of insecurities and fears. With the help of this program, I became more confident and wasn’t afraid of participating in class or going to my professors’ offices.

How will you pay it forward?

By becoming a leader in my field. I will always make myself available to support other people who might be experiencing the same feelings I once experienced, such as lacking confidence.

What will your legacy be?

To fulfill UF’s purpose of making a better world through future research projects, professional and personal endeavors. I will make sure my actions have the Gator signature on them.

Awards to Outstanding Student Leaders

The Selection Committee for Outstanding Graduating Student Leaders considers the quality and scope of leadership activities, universitywide leadership, experience, special awards, recognition and recommendations of faculty, staff and students.

Blake Murphy
Outstanding Leader

What is your proudest Gator moment?

Learning that my two younger brothers would come to the University of Florida. After introducing them to campus and helping them with their applications, knowing I have been able to make my campus better for them means so much to me.

What is something every Gator should know?

Every Gator counts. We have such an outstanding campus, I hope every student feels connected and welcomed. In times of need or turmoil, you can always reach out to another student because of our shared commitment to look out for each other.

What is your favorite Gator icon or tradition?

Participating in the Preview program. As an orientation leader, I have been able to see firsthand how important the transition from high school to college can be on a student's time at UF.

Who are the Gators who inspire you?

Administrators in Student Affairs. They share an "on-call" emergency cell phone and are ready 24/7 to help students in need. I met a student in crisis on Christmas Eve one year and these administrators were able to work for students even then.

What is the most important lesson you learned from (or taught to) a fellow Gator?

Empathy is key to leadership. Learning about what matters to the students you are working for and staying in tune with the feelings of the students you're working with can greatly influence the success of the team.

What was your most fulfilling UF role?

Chair of the Newell Hall Student Advisory Board. Being able to watch my ideas on renovating the building go from paper to become permanent fixtures of a campus building is something I will be able to show my children one day.

Which UF affiliations or activities nurtured you most?

Being a Preview staffer. I met thousands of incoming students and learned so much about all the different kinds of people that comprise The Gator Nation. From our diverse student body to our top-notch campus partners, this experience taught me so much about how our university runs and operates.

Robert Pomeroy
Outstanding Leader

What is your proudest Gator moment?

When I was selected the 2015 Homecoming king at Gator Growl. My family was in the audience and it was exciting to share the experience with them.

What is something every Gator should know?

The fight song. It is one of my favorite traditions, and not many current students know the whole thing. It is so much fun to talk to alumni and hear about how they experienced football games when they attended UF.

Who are the Gators who inspire you?

The amazing faculty and staff members I had the privilege to work with during my time at UF. They challenged me to be the best version of myself, and I could not be more thankful for their guidance.

What is the most important lesson you learned from (or taught to) a fellow Gator?

Figure out what you are truly passionate about and pursue that. One of my mentors on campus helped me when I felt very lost my sophomore year, and I have never forgotten her wise advice.

What was your most fulfilling UF role?

Programming vice president for Florida Cicerones. I am so passionate about the organization and being able to leave a lasting impact on it through my role on the executive board has been an amazing experience.

How will you pay it forward?

All my involvement at UF has been centered on advancing this community because I feel so grateful to be here, and when I graduate I will be active in doing the same, whether that means getting involved in Gator Clubs, giving back to the university or advocating for UF every chance I get.

What will your legacy be?

I love this university, and my entire college experience has been dedicated to its development, whether through recruiting the best students on tours or setting students up for success at Preview.

How do you bleed orange and blue?

By always saying "Go Gators" whenever I see UF fans anywhere. One of the best parts about attending this university is the amazing and immense alumni base.

Awards to Outstanding Student Leaders

The Selection Committee for Outstanding Graduating Student Leaders considers the quality and scope of leadership activities, universitywide leadership, experience, special awards, recognition and recommendations of faculty, staff and students.

Katelynd Todd
Outstanding Leader

What is your proudest Gator moment?

Stepping on the field as the 2015 homecoming queen and celebrating Gator spirit with 80,000 students. My stepdad and I attend the first game of every season together to celebrate our love for the Gators and to remember my late brother Eddie. That moment that both of us were on the field meant so much to us and really embodied the true emotions of being a Gator and the opportunity it has given my family.

What is something every Gator should know?

Their experience is their own. Taking ownership of your passions and giving yourself the leeway to explore yourself is your right. Give yourself your chance to be you. The collectives of that empowered individual is what makes The Gator Nation.

Who are the Gators who inspire you?

Two of the most inspiring Gators I know are Nancy Chrystal-Green and Mickey Howard. They have given back to me by listening and giving me constructive criticism. I look up to them because I've seen them make really hard decisions with loving intentions, and that is a level of integrity I hope to always uphold.

What was your most fulfilling UF role?

Being director of Excellence Scholars within the Black Student Union. I loved serving the community that believed in me.

Which UF affiliations or activities nurtured you most?

My involvement with SISTUHS, Inc. provided me with sisterhood and a platform to create programming to address community needs. This organization taught me a lot about womanhood and servanthood.

How will you pay it forward?

I will and have paid forward everything I learned through developing two community programs: Gainesville Reads and GROW. I invest heavily in nonprofit organizations by giving others my talents and resources.

How do you bleed orange and blue?

By going back to my hometown and promoting the culture of the University of Florida. I pay forward my education and my experiences through storytelling and service.

Susan Webster
Outstanding Leader

What is your proudest Gator moment?

In an effort to assist members of our diverse campus community who experience food insecurity, I am proud I helped establish the Field and Fork Food Pantry, orchestrated a campuswide food drive and raised more than two tons of food to stock our shelves.

What is something every Gator should know?

The Gator Nation is everywhere. We have a beautifully pervasive culture and no matter where you are in the world people will recognize you for the inherent Gator pride and enthusiasm.

What is your favorite Gator icon or tradition?

Even after attending Gator games my entire life, I still get chills when we link arms and sing "We Are the Boys" in the third quarter.

Who are the Gators who inspire you?

I am blessed to have loving parents who have shown me what it truly means to be a Florida Gator. I thank and admire my mom and dad for teaching me the true Gator values of hard work, innovation and perseverance.

What is the most important lesson you learned from (or taught to) a fellow Gator?

In essence, the University of Florida prepares you for the real world. My experiences at this incredibly diverse school will undoubtedly make for a smooth and easy transition into my postgraduate life.

Which UF affiliations or activities nurtured you most?

My vast involvement in Student Government encouraged me. In times of adversity, I learned to overcome; in times of victory, I have been humble.

How will you pay it forward?

Through intentional mentorship. I feel it is my duty to make sure younger Gators strive to become better leaders than I ever was, and to equip our future leaders with resources, encouragement and inspiration.

How do you bleed orange and blue?

In all things I do, my passion and dedication to making the University of Florida a Top 10 institution is present.

Honorable Mentions

The following students have been recognized for their leadership at the University of Florida. They deserve congratulations for their contributions to the university.

MASTER OF SCIENCE IN TEACHING

James Hotchkiss IV
Astronomy

MASTER OF STATISTICS

Runmin Shi

Ruoxuan Xiang

Shu Ye

MASTER OF SUSTAINABLE DEVELOPMENT PRACTICE

Irving Xchel Chan Gomez
Jessica Horwood

Kristen Elizabeth Marks

Gabriela Polo
Whitney M. Turentine

Honors designations in this program are incomplete, tentative, may not properly represent a student's academic accomplishment and are subject to change. Final honor designations will be represented on the official diploma and on the transcript.

COLLEGE OF AGRICULTURAL AND LIFE SCIENCES

What Makes a University Great?

Some interesting facts about the University of Florida

Educational Excellence

UF is consistently ranked among the nation's top universities: No. 14 in U.S. News & World Report "Top Public Universities" (2015); No. 2 in the Fiske Guide to Colleges' list of Best Buys Among Publics (2016); No. 14 on the Forbes' list of Best Public Universities (2015); and No. 7 on Washington Monthly magazine's list of national universities that offer the best bang for the buck (2014).

Faculty

- UF has nearly 5,000 faculty members with distinguished records in teaching, research and service, including 36 Eminent Scholar chairs and 41 faculty elections to the National Academy of Sciences, Engineering, the Institute of Medicine or the American Academy of Arts and Sciences.
- Awards include two Pulitzer Prizes, NASA's top award for research, and the Smithsonian Institution's conservation award.

Students

- Ninety-seven percent of incoming freshmen score above the national average (1500/21) on standardized exams. Students admitted for the fall 2015 freshman class had an average 4.3 GPA and an average SAT score of 1913.
- More than 1,285 International Baccalaureate students were enrolled in UF in March 2016. The freshman retention rate of 96 percent is among the highest in the country.
- Among AAU public universities, UF ranked first in master's degrees and second in bachelor's degrees awarded to Hispanic students in 2014.
- Sixty-seven percent of UF full-time freshmen graduate in four years, and 88 percent of UF freshmen graduate within six years (2008 cohort).
- Fifty-six percent of UF graduates leave the university with no student-loan debt. For the remaining students, their average indebtedness is about \$21,028, as compared with the national average of over \$28,000 (2014-15).

UF

2016 SPRING
COMMENCEMENT

Chain of Office

The chain of office is an ornament worn with the president’s academic regalia symbolizing the authority and responsibilities incumbent with the office. The chain was presented in 2004 during the installation ceremony of President J. Bernard Machen. The medallion centerpiece is a 1.3-carat orange diamond engraved with the portraits, names and service years of the university’s 11 presidents. The Major Analytical Instruments Center at UF used ion beam engraving technology on the medallion. Also on the medallion are three .025-carat blue diamonds placed around the silhouette of the Century Tower and University Auditorium, signifying teaching, research and service. All four diamonds, donated by Gemesis Corp. of Sarasota, Florida, were grown using a process developed and patented by UF’s Department of Materials Science and Engineering.

Academic Mace

“Honoring the Past, Shaping the Future” was the signature of the University of Florida’s sesquicentennial celebration in 2003. It also was the inspiration for the ceremonial mace created and dedicated to mark this historic event. The mace dates back to the Middle Ages and symbolizes strength and authority; each is unique and reflects the values and characteristics of the institution. The university’s chief marshal, who leads all academic processions, carries the mace. Designed and crafted on the University of Florida campus, the mace artfully symbolizes those elements important to the university’s identity and history.

The 70-inch ceremonial staff combines traditional elements with modern styling. The stylized alligator rests on the globe signifying the University of Florida as an adaptable global leader in teaching, research and service. The four pillars supporting the globe represent the four original colleges; Agriculture, Engineering, Liberal Arts and Law. The cone holds the University of Florida Seal and words to the Alma Mater. The staff is carved from native cherry wood. The acorn finial depicts the adage “from tiny acorns mighty oaks do grow,” a commitment to life long learning. The brick pattern on the handle symbolizes higher education tradition and structure. Like the institution it represents, the mace is not static; growth and movement are expressed with loose rings engraved with the names of the university’s presidents and their years in office.

University of Florida Tassels

Fisher School of Accounting	Aqua
College of Agricultural and Life Sciences	Maize
M.E. Rinker Sr. School of Construction Management.....	Burnt Orange and Opal

College of Pharmacy.....	Olive Green
College of Public Health and Health Professions.....	Salmon
College of Veterinary Medicine.....	Gray

Diplomas

Diplomas will be mailed to the graduate’s permanent home mailing address in June 2016.

Caps and Gowns, An Explanation

The academic costume worn by graduating students and faculty at today's commencement ceremonies evolved from a style of dress worn by members of guilds and religious orders in medieval times. The academic gown is worn by individuals who have earned a degree in higher education. In addition, hoods are worn by graduate degree candidates, but not by undergraduate degree candidates.

At the University of Florida, the lining of the hood has a blue chevron on an orange background to represent the university colors. University faculty members who hold degrees from another college or university wear the colors of their alma mater.

The velvet edging on the academic hood is the color that represents the particular degree held by the wearer. Agricultural and Life Sciences and Forest Resources and Conservation share maize edging; Design, Construction and Planning and Building Construction are blue violet; Audiology degrees have colonial blue edging; Business Administration and Accounting are drab; Dentistry is lilac; Education is light blue; Engineering degrees are represented by orange edging; Fine Arts degrees have brown edging; Health and Human Performance is sage green; Journalism and Communications is garnet; Law is purple; Liberal Arts is white and Liberal Sciences is gold yellow; Medicine is green; Music is pink; Natural Resources and Environment is antique gold; Nursing is apricot; Doctor of Pharmacy is olive; Philosophy is royal blue; Public Health degrees have salmon pink edging; Rehabilitation Counseling degrees have Nile green edging; and Veterinary Medicine is gray.

Distinctions among sleeves indicate the type of degree held by the wearer. A long, pointed sleeve indicates a bachelor's degree, while a long, closed sleeve with a slit near the upper part of the arm designates a master's degree. A round, open sleeve identifies a doctoral degree.

The doctoral costume also has velvet running on the rest of the gown, including cross bars on the sleeve. Colored tassels on the degree candidates' caps indicate a candidate's school or college.

UF

Alma Mater

*Florida, our Alma Mater
Thy glorious name we praise
All thy loyal sons and daughters
A joyous song shall raise.
Where palm and pine are blowing,
Where southern seas are flowing,
Shine forth thy noble Gothic walls,
Thy lovely vine-clad halls.
Neath the Orange and Blue victorious
Our love shall never fail.
There's no other name so glorious—
All hail, Florida, Hail!*

Milton Yeats
